## HRFP

- WebView is a **requirement** for all patients of HRFP. This enables access to detailed and accurate personal medical records in a secure fashion, no matter where the patient may be as long as there is Internet Access.
- The fees for this are **Seven Cents per Day** which is **\$ 25 / year per patient, or \$ 50 / year per family of four.**
- WebView is a patient healthcare portal that has a Technology Access Non-Covered Service Fee (TANCS), that is a requirement for all patients of HRFP (as long as they have Internet Access, have an E-mail address). With WebView and Messaging within the patient's personal, secure medical record being the preferred method of Internet communications between the patient and the physicians and staff of HRFP.
